When determining election results under the nonpartisan election procedure set forth in A.R.S. 9-821.01, a candidate is declared elected to office in the primary if that candidate has a majority of all votes cast. Under this procedure, a “vote cast” is the same as a “ballot”. For example, a voter has only one vote and one ballot, even though a voter may exercise a number of choices on a ballot. Therefore, in this council election, the voter would have two choices on a ballot. However, when counting the total number of votes cast, it is the number of ballots, NOT the number of choices exercised on each ballot, which determines more than one-half of the total vote cast.

The number of “ballots” cast is 978.

Bauer, Ellie	439 Votes	44.89% of total ballots cast
Bohall, Curt	532 Votes	54.40% of total ballots cast
Regner, Bill	669 Votes	68.40% of total ballots cast

The Unofficial Final Results show that Curt Bohall and Bill Regner have over 50% of the ballots cast and therefore have been elected to office in the primary and the Town of Clarkdale will not be holding a general election for Town Council on May 18th.
